This memorandum of agreement (MOA) by and between CITY of Lewistown, 305 West Watson , Lewistown, MT 59457 (CITY), and the Montana Department of Transportation, PO Box 201001, Helena, MT 59620-1001 (MDT) establishes the roles, responsibilities, and commitments relative to the planning, costs, and administration responsibilities necessary for the reconstruction of 6th Avenue, from Ash Street to city limits; Walnut Street, from Ash Street to Casino Creek Drive; and Ash Street, from Upper Spring Creek Road to Walnut Street within the Lewistown Urban Area.

This PROJECT is in the city of Lewistown on 6th Avenue (U-7107) from Ash Street to the City Limits, Walnut Street (U-7110) from Ash Street to Casino Creek Drive, and Ash Street (U-7110) from Upper Spring Creek Road to Walnut Street. S. C.) and related federal regulation and guidance and Title 60, Montana Code Annotated (MCA); and

WHEREAS, the CITY agrees to be responsible for items identified in this MOA and be responsible for preparing the financial package for the PROJECT; and

WHEREAS, the CITY agrees and understands that the PROJECT will not be programmed for the construction phase until a funding package for all improvements, including contingencies and overruns, is in place to MDT's satisfaction.; and

WHEREAS, the CITY agrees this PROJECT is and will remain the CITY's Urban Highway Program funding priority until constructed; and

WHEREAS, the current estimated cost for all phases of the PROJECT is approximately \$3,100,000¹ including indirect costs (IDC);

¹ Cost estimate based on preliminary estimates dated 09/2021, includes all phases, inflation, and IDC.

WHEREAS, it is mutually agreed upon that a cooperative delineation and identification of duties and responsibilities of the parties is essential to the overall development of this PROJECT.

NOW THEREFORE, the parties set forth below the fundamental duties and responsibilities necessary for this proposed PROJECT.

I. PROJECT DEVELOPMENT

A. MDT:

1. Will develop and let the PROJECT for construction including consultant management, administration, engineering analysis, surveying, design, public involvement, environmental documentation, clearances, plans preparation, acquisition of all appropriate permits, and the provisions of other services required to complete the preconstruction phase, right of way acquisition, and utility relocations in preparation to let and to construct the PROJECT.
2. Agrees all design will be in accordance with MDT's Project Development Procedures and Design Manuals and, where applicable, current MDT and AASHTO urban standards.
3. Agrees to collaborate with the CITY and the consultant on design specific details in all public involvement activities.

B. CITY:

1. Agrees to act as the PROJECT sponsor and will provide appropriate and timely input during the PROJECT's development. The CITY will issue local permits for applicable construction activities.
2. Acknowledges PROJECT design decisions and changes have potential to impact PROJECT schedule and fundability.
3. Agrees to participate and support MDT in public forums, present in collaboration with the consultant and MDT design specific details and PROJECT elements.
4. Agrees to update the local Transportation Coordinating Committee (TCC) regularly. Updates to include PROJECT status including PROJECT decisions affecting STPU funding.

II. ENVIRONMENTAL REVIEW

A. MDT:

1. Will be responsible for the development of documents necessary for compliance with the National Environmental Policy Act (NEPA), 23 CFR 771, Section 106 of the National Historic Preservation Act (NHPA), Section 4(f) of the DOT Act, and the Montana Environmental Policy Act (MEPA), in connection with the actions contemplated in this agreement. MDT will coordinate with FHWA for their approval of the NEPA document, as necessary.

B. All Parties:

1. Understand that the decisions made by MDT and FHWA pursuant hereto and the execution of this agreement do not constitute the irretrievable commitment of resources by MDT or the CITY until all necessary steps are taken with

regard to any particular decision to comply with NEPA/MEPA and other applicable state and federal laws.

III. FUNDING

A. MDT:

1. Will bill the CITY for costs in excess of available federal funding or elements that are not federal-aid eligible prior to programming.

B. CITY:

1. Agrees to and acknowledges its responsibility for all costs associated with the PROJECT in excess of available STPU funds, for 100% of non-federal aid eligible costs, and payback of state and federal funds expended on the PROJECT if required.
2. Will provide any necessary local or non-federal match funds and associated indirect costs to MDT within thirty (30) days of billing. MDT will not submit programming requests to FHWA for individual PROJECT phases until the required matching funds and funds for costs in excess of available federal funds, if any, have been transferred to MDT.
3. Agrees, if the CITY actions cause MDT to terminate the PROJECT development at any time, it will reimburse MDT for any and all costs incurred by MDT, including any required payback of Federal funds already expended on the PROJECT, up to the date of the stoppage.
4. Agrees, if the CITY actions result in federal nonparticipation, it will reimburse MDT for any and all costs incurred by MDT, including any required payback of Federal funds already expended on the PROJECT related to all nonparticipation costs.
5. Will develop a comprehensive financial plan, for MDT review and approval, for the PROJECT. The financial plan must address sources of funds in the event of unanticipated cost overruns. This financial plan must be approved before MDT will request programming for the construction phase of the PROJECT.

C. All Parties:

1. Agree and understand Section 17-1-106 MCA requires any state agency, including MDT, which receives non-general funds to identify and recover its indirect costs. These costs are in addition to direct PROJECT costs. MDT's indirect cost rate is determined annually as a percentage of the PROJECT'S direct costs to cover the PROJECT'S share of MDT's indirect costs as defined by 2 CFR Part 200 Appendix VII. MDT's current indirect cost rate is 10.71% for fiscal year 2023 (July 1, 2022, to June 30, 2023).

For this PROJECT, MDT billings to the CITY will include a charge for the indirect costs at the current fiscal year indirect cost rate. This amount will be applied toward the total PROJECT contribution of the CITY, if this PROJECT extends across more than one fiscal year, more than one annual rate will be involved, as the rates may change during the life of the PROJECT.

2. Agree and understand the PROJECT will not be programmed for the construction phase until a funding package for all improvements, including contingencies and overruns, is in place to MDT's satisfaction.
3. Agree current PROJECT cost estimate for all phases is \$3,100,000, this includes IDC, contingency, and inflation to FFY26. Project costs will be assessed at final design. If at final design, the estimate exceeds the available STPU funds described in this Section, the CITY will have the option to modify PROJECT features to best fit the PROJECT needs and budget.

PROJECT funding sources include:

STPU funds FFY 2026 ² :	\$ 3,410,000
	\$ 3,410,000

4. Agree PROJECT estimates will be updated at PROJECT milestones or as more refined estimates become available until PROJECT closeout. All Parties will meet regularly during the PROJECT development process and during each phase to exchange PROJECT information, ensure PROJECT and funding are tracking together, and identify any outstanding issues.
5. Acknowledge PROJECT design details and changes have potential to impact PROJECT schedule and fundability. PROJECT cost increases above available funding will delay PROJECT delivery timeframes until a complete funding package has been secured.

IV. PROJECT DESIGN PHASE

A. MDT:

1. Will develop constructible design plans, in accordance with MDT design policies, practices, guidelines, and the environmental process for the PROJECT.
2. Will provide the CITY a design phase cost estimate including indirect costs to cover MDT administrative expenses and request for any non-federal match funds.

V. RIGHT-OF-WAY ACQUISITION

A. MDT:

1. Will request federal authorization to proceed with right-of-way acquisitions.
2. Will follow standard procedures to appraise, acquire and certify that all right-of-way donated or purchased for this PROJECT was acquired in accordance with all applicable federal and state laws and regulations required for federal funded projects such as 49 CFR Part 24, Uniform Relocation Assistance and

²Estimated Annual Allocations are subject to MDT Transportation Commission approval. Funding Projections are based on best available information and are subject to change given current funding uncertainties and unknown impacts of future congressional or other federal and state actions. Surface Transportation Program (STPU) funds available is dependent on the delivery year of the PROJECT.

Real Property Acquisition Regulation for Federally Assisted Programs, and the guidelines and procedures contained in MDT's Right of Way Manual.

3. Acknowledges that any right of way donated toward the PROJECT will reduce the overall PROJECT costs and be considered as participation in the PROJECT funding package, subject to limitations of federal/state match requirements, the right of way requirements of the PROJECT, and subject to FHWA approval.

B. CITY:

1. Acknowledges that, according to federal regulations, if right-of-way is donated to a PROJECT, the value of the right-of-way can only be credited after notification from MDT that FHWA authorization to proceed with right-of-way acquisition has been issued and is subject to the following provisions:
 - a. Any right-of-way acquired or donated for the PROJECT must be procured in accordance with 49 CFR Part 24, Uniform Relocation Assistance and Real Property Acquisition Regulations for Federally Assisted Programs, and the guidelines and procedures contained in MDT's Right of Way Manual. Per MDT policy 8-03-002, donated right of way for the PROJECT as in-kind contribution can be used to reduce the overall PROJECT costs, not to match federal funds. Donated right of way will be valued by MDT as consistent with state and federal requirements.

C. All Parties:

1. Agree valuation of CITY's right of way acquired for the PROJECT will be determined by a qualified appraiser per MDT's discretion.

VI. UTILITIES

A. MDT:

1. Will inform the utility companies responsible for water, storm and sanitary sewer, power, gas, and phone of the future plans for the area and encourage the utility companies to make provision for any utility additions, adjustments, or replacement anticipated within 20 years after the estimated completion of the PROJECT.
2. Will prepare necessary utility agreements for facilities that must be moved because of conflicts with the proposed PROJECT.
3. Will follow standard procedures for utility relocations and will coordinate with the CITY.

VII. CONTRACT AWARD ADMINISTRATION

A. MDT:

1. Will provide a detailed breakdown of all estimated PROJECT costs and bill the CITY accordingly for local contributions as necessary to complete the funding package and bill the CITY in advance for construction of the PROJECT no more than (60) days before bid opening.
2. Bid, award, and administer the construction contract for the PROJECT, once a complete funding package is in place, in accordance with the standard MDT procedures, including obtaining concurrence of award from FHWA.

3. Will not award the PROJECT contract without the CITY's concurrence if the bid price exceeds the available funds or exceeds MDT's Project Award Guidelines.

B. CITY:

1. Will submit payment for its portion of PROJECT cost based on the MDT engineer's estimate for the construction and construction engineering costs to the MDT within thirty (30) days of billing.
2. Agrees if the federal government requires a reimbursement or return of any federal funds because a PROJECT doesn't advance due to CITY's failure to make any scheduled payment, the CITY will reimburse MDT for those federal funds within thirty (30) days of billing.
3. Agrees if at bid opening the CITY concurs with cost increases greater than MDT's Project Award Guidelines, the CITY will pay the increased costs in excess of available STPU funds within thirty (30) days of MDT's billing.
4. Agrees if at bid opening the CITY does not concur with cost increases greater than 10% of MDT's estimate, MDT will not award the PROJECT.
5. Agrees payments to this PROJECT will be coordinated through the MDT's Administration Division and will be provided to MDT staff in the form of a check to be deposited and credited to this PROJECT. C. All Parties:

1. Agree project costs will be assessed at final design. If at final design, the estimate exceeds the available STPU funds described in Section III, the CITY will have the option to modify PROJECT features to best fit the PROJECT needs and budget.
2. Understand it is possible that the PROJECT estimate may be exceeded once construction has begun. MDT will inform the CITY beforehand, and as early as possible, of anything that appears will result in a cost increase in excess of available STPU funds and will discuss the need for any possible change order

with the CITY. It is agreed the CITY does not have the ability to veto or delay, or refuse to pay for, any change orders deemed necessary by MDT. Change orders, costs increase or unforeseen expenses in excess of available STPU funds will be borne by the CITY.

3. Agree the CITY's portion of the cost of any change order will be billed as early as it can be readily determined and will be due and payable by the CITY within thirty (30) days of the statement.
4. Agree within six (6) months after the PROJECT has been finally accepted with the final costs submitted, MDT will submit a final statement to the CITY. The final statement will be in the form of an invoice and provide details of any expenses that may be identified as "miscellaneous," billing the CITY for cost overruns, or it will be a check, for overpayment by the CITY. The CITY must submit payment to MDT within thirty (30) days of billing. If payment is not made within that thirty (30) day period, interest on the unpaid amount will accrue at the rate of 10% per year and continue to accrue until paid in full. If the CITY is billed for additional funds, MDT will not participate in any future funding agreements with the CITY until full payment, including interest, is received from the CITY.

VIII. PROJECT CONSTRUCTION PHASE

A. MDT:

1. Will request programming of STPU funds and program local funds, if necessary, to complete the funding package for the construction phase of the proposed PROJECT.

B. CITY:

1. Acknowledges the funding plan must demonstrate that all components of the PROJECT will be completed.
2. Acknowledges FHWA construction phase approval is contingent on an acceptable and comprehensive funding plan for the completed PROJECT.
3. Acknowledges the value of quantifiable materials and other MDT and FHWA approved in-kind contributions can also be credited to reduce overall PROJECT costs if all specifications are met and the transfer of ownership is accomplished after the PROJECT is programmed. No other contributions or services will be credited.

C. All Parties:

1. Agree and understand that MDT's funding contribution is contingent on the conditions described herein and therefore the PROJECT will not be programmed for the construction phase until:
 - a. a funding package for the PROJECT through construction, including contingencies and overruns, is in place to MDT's satisfaction; and
 - b. all approvals, clearances and permits are obtained.

MONTANA TRANSPORTATION COMMISSION POLICY STATEMENT

Adopted by the Montana Transportation Commission
during regular session on April 7, 1998 – Revised November 22, 2002
Policy Number _____06

URBAN HIGHWAY PROGRAM BORROW POLICY

Background

Each year the Transportation Commission allocates a portion of the Federal Aid Surface Transportation Program funds to the Urban Highway System. The annual allocation is used to fund construction projects on the designated urban highways in Montana's fifteen urban areas.

State statutes and past commission action have allowed urban areas to borrow against their anticipated Urban Highway Program funds. Recognizing that Urban Highways Program funds are apportioned solely on the basis of urban population and that the apportionments vary greatly among the fifteen urban areas, this policy seeks to better manage the program through setting understandable borrowing limits.

Policy

1. The projects must be on the State Urban Highway System as defined by the Montana Transportation Commission to be eligible for Urban Highway Program funds.
2. Each city (urban area) can borrow up to five years of its current year apportionment for the benefit of eligible projects but the total amount advanced cannot exceed one-half the total amount apportioned to the State Urban Highway Program.
